

Vijay Tella

Chief Executive Officer & Co-Founder

Vijay is the CEO and co-founder of the Enterprise Automation platform, Workato. He has led the creation of market-leading integration technologies for over 25 years. Prior to Workato, he was the CEO of Qik, a consumer video communications company that was acquired by Skype. Before Qik, he helped create two multi-billion dollar integration products. He was part of the team that created the world's first middleware platform, TIB (The Information Bus) at Teknekron Software Systems, which was acquired by Reuters Plc, in 1994. He was also on the founding team and SVP, Engineering of TIBCO through its IPO. As Chief Strategy Officer, he then helped launch Oracle's Fusion Middleware platform in 2005.

Gautham Viswanathan

Chief Product Officer & Co-Founder

Gautham is the head of product and co-founder at Enterprise Automation Platform, Workato. Previously, he created the first integrated middleware platform, BusinessWorks, that became the template for the more cloud integration platforms of today. Gautham was an early employee of TIBCO, where he held several leadership positions - engineering, product marketing & management, and corporate development. BusinessWorks powered TIBCO's growth from a startup to one of the top names in enterprise software. After TIBCO, Gautham founded and was the CEO of two SaaS startups.

Tom Ream

Chief Financial Officer

Tom has extensive experience managing finances at both startups and large companies as a partner of David Powell's Financial Services Division. He was also CFO of Cloudmark, a software security provider, where he oversaw finance, HR, and corporate development. Tom has also had a broad set of management and operational responsibilities beyond finance including line management, sales, legal affairs, corporate development, and human resources at companies like IdenTrust, Tacit Software, and more.

Carter Busse

Chief Information Officer

Carter is the CIO of Workato, where he leads business technology and best practice internal usage of Workato's automation technology. His thought leadership has been quoted in Business Insider, Quartz, CIO Dive, VentureBeat, and more. As an IT executive, Carter has seen success in both private and public companies with a career spanning 3 IPOs - Excite@Home,

Salesforce.com, and MobileIron. He was employee number 70 and the first IT leader hired at Salesforce.com. His leadership expertise spans automation, business technology, security, and IT operations. Current projects include using NLP to improve the employee experience, and driving security automations to new levels at Workato.

Carle Quinn

Chief People Officer

Carle Quinn is Workato's Chief People Officer where she is responsible for all aspects of the human resources strategy, including talent management, leadership development, and compensation and benefits, as well as leading all human resources functions globally. She brings 20+ years of experience in human capital management where she has served in a number of increasingly senior business and executive HR leadership roles. Over the course of her career, Quinn has gained global leadership experience in Human Resources and in Sales and Consulting at companies like SAP, GE, IBM, and most recently as Vice President of GTM Strategy & Customer Value at Citrix.

Bhaskar Roy

Chief Marketing Officer

Bhaskar, over the past 20 years, has experience building enterprise and consumer products and bringing them to market. He was a co-founder and SVP, Products at Qik, a mobile video communication company that was acquired by Skype / Microsoft, and CPO at Playphone, a mobile gaming platform acquired by GungHo Online Entertainment. Bhaskar also led product management and channel marketing at PlaceWare which was acquired by Microsoft and became Microsoft Lync.

Massimo Pezzini

Head of Research, Future of Enterprise

Massimo is Head of Research, Future of Enterprise for Workato, the leader in enterprise automation. In this role, Massimo is a strategic advisor to the Workato team, with a focus on how automation technologies will evolve to support a rapidly transforming business environment. Massimo has 45 years of experience in the IT market and spent the last 25 years at leading research analyst firm Gartner as Vice President Analyst. At Gartner, Massimo played a leading role in some of the most ground-breaking research in automation and integration technology and has a profound understanding of the dynamics at play in these markets. He has advised hundreds of organizations worldwide, including Global 2000s, on how to strategically leverage integration and automation technology to support their digital transformation plans effectively and efficiently.

Kerry Moore**Vice President, Global Talent & Diversity**

Kerry has over 20 years of experience leading Global Talent Acquisition teams for tech companies, where she laid the foundation for exponential growth across departments. Throughout her career, Kerry has developed Talent Acquisition strategies that promote and celebrate diversity and inclusion, improved processes by using technology, data, and metrics to drive change, and has turned to using automation to create best-in-class candidate experiences. Prior to joining Workato as Vice President of Talent & Diversity, Kerry held senior leadership roles at companies including Kronos/UKG, Entegris, Teledyne FLIR, and most recently ZoomInfo where she was the VP of Global Talent.

Gaby Moran**Director of Customer Experience**

Gaby Moran, Director of Customer Experience at Workato, has been in the CX industry for the last 10 years, where she has helped some of the world's leading brands to implement CX programs and drive business change through direct customer feedback. She has spent the last 5 years focused on helping high-growth SaaS organizations leverage CX to reach their goals through customer-centricity.

Amlan Debnath**SVP Global Field Operations and Customer Success**

Amlan has, over the past 20 years, led several of the top integration and PaaS products in the market. As Senior Vice President of Platforms at Salesforce, he led Force.com, AppExchange, and other platform technologies. Prior to that, he was VP of Integration Products at TIBCO and the SVP of Integration Products at Oracle.

Markus Zirn**SVP of Strategy & Business Development**

Markus has held product and leadership positions for both start-ups and large public companies in the Big data and Integrations spaces. Prior to Workato, he led the product and solutions teams at Splunk and also headed Product Management at Oracle for integration, business processes, and business event management products.

Jayesh Shah**SVP Global Solutions Consulting, Operations, and Customer Success**

Jayesh has over 25 years of experience delivering market-leading products and services in enterprise and consumer domains. He has served in various leadership roles at TIBCO, BEA, Oracle, Teradici as well as a number of startups. He has extensive experience in strategic planning, business development, product management, product development, global support, and professional services with both large enterprises as well as startups.

Todd Gracon

SVP of Sales

Todd Gracon is a sales executive with 20+ years of experience and an MBA from UC Berkeley. He has worked in roles ranging from selling, architecting, developing, and consulting; he is passionate about disruptive and innovative approaches to problem-solving. Prior to Workato, he spent time at Accenture, BEA Systems, Oracle, and Tableau.
